

SPREADERS

PRS-20T MULTI-PURPOSE SPREADER

GPS Compatible

Highly Economical

Effective Spreading

The Zero Equivalent Utility Spreader is more economic and multi-purpose and upgradeable for all your spreading needs. The 16m³ bin capacity saves time by reducing frequent refilling intervals. The PRS-20T offers value for money and uncompromising quality. The PRS-20T operates on a modular system where the chassis and the body is not welded but bolted together with rubber between the chassis and body, thus reducing the possibility of any welded components cracking.

STOCK CODE	A16CS
MAXIMUM LOAD CAPACITY	20 TON
CUBIC METER CAPACITY	16m ³
TOTAL LENGTH INCLUDING DRAW BAR	7 700mm
TOTAL WIDTH	2 800mm
BODY LENGTH	5 750mm
